I thought Bill F since he has been point working with Lisa in regions and states. When outlook updated it appeared. I like Ron's idea as an item... not sure if the meeting is still planned.

Thanks Bill

Hi, This just showed up in my email. Did anyone from act on this – or planning on attending? Thanks, Bill

Ron and Bill - Here's another request for topics that might be discussed by ORD during a planned visit with NC DEQ at their lab on Reedy Creek Road November 16. Please consider topics NHEERL can highlight relevant to NC, particularly topics that are important to NC post-Florence. Thanks, Wayne

**Subject:** SAVE THE DATE: NC DEQ lab visit

US EPA's Office of Research and Development (ORD) is looking forward to visiting NC DEQ's Reedy Creek Lab. This is proposed to be a half day visit to tour the lab and learn about their S&T capabilities and discuss topics of interest to the state and related science and technical needs, as well as potential collaborations.

We'd like to identify a few topics for discussion that are of most interest to NC DEQ, for example something like PFAS and Hurricane Florence response. I'm seeking their input to identify a few issues that are

important to the state and connected to the work at the Reedy Creek lab. We are planning to invite a mix of ORD management (including ORD Lab Directors) and senior scientists to participate in the visit (depending on the agenda topics).

Your suggestions are welcome, and please let me know if you have any questions. I hope you will be able to attend. More to come.

Thank you,  
Lisa
